

Safety Instructions

The safety and wellbeing of all visitors and staff is of the highest importance to BCC management.

BCC management and staff will monitor all users of the nets to ensure a safe and secure environment is provided. Where BCC management and staff feel the use of the nets are unsafe, they will ask people to leave the net area or the premises.

Rules for entering nets

- a. All batsman must wear protective cricket gear and helmets at all times – this includes facing live bowling (pace and spin) and bowling machines regardless of pace.
- b. Once you have entered the net arena, every person has an obligation to face where the batsman are hitting from. NEVER turn your back to the batsman as you walk around the back of the nets.
- c. When using the bowling machines, users are not to increase speed to dangerous levels. BCC management and staff reserve the right to refuse use to any person if they feel the bowling machine is not being used in a safe manner.
